

## The EA Remodel

# **Certification Process**

### Workflow

**ACCREDIT** (Prior to first EA Remodel Certification Project)

Register for EA Remodeler accreditation course.

Attend course and pass green building test to obtain accreditation.

### **EVALUATE & PLAN**

Perform evaluation of the home using the EA Remodel online scoring tool.

Discuss results with home owners, identify the pillars to pursue, and develop scope of work. **Optional:** Perform energy audit prior to upgrades using CakeSystems Software. *CakeSystems training required.* 

### **REMODEL**

Remodel home according to the scope of work.

Perform upgrades designed to satisfy pillar requirements.

### **INSPECT**

EA Rater conducts inspection. Remodeler makes corrections if needed.

If energy pillar or whole house certification...

Remodel passes inspection.

Perform energy audit using CakeSystems Software.

CakeSystems training required.
