1. Introduction

This Home Energy Score Assessor Participation Agreement (Agreement) is entered into by and between Earth Advantage, Inc. (Earth Advantage), the State of Oregon's designated Oregon Home Energy Score Program Quality Assurance Provider, and _____ (Home Energy Assessor).

By signing below, Home Energy Assessor agrees to register with Earth Advantage for Quality Assurance services related to the Oregon Home Energy Score program and abide by *Earth Advantage's Oregon Home Energy Score Quality Assurance Protocol (Appendix A)*, *Earth Advantage's Customer Dispute Protocol (Appendix B)*, and the Terms and Conditions contained herein.

Home Energy Assessor understands that registration with Earth Advantage does not constitute an endorsement of any kind on the part of Earth Advantage or the Oregon Department of Energy. Home Energy Assessor shall not state or imply any such endorsement, either directly or indirectly, and shall not claim association with Earth Advantage or the Oregon Department of Energy in any capacity other than as an independent home energy assessor authorized to provide the approved Oregon Home Energy Score. Home Energy Assessor shall be solely responsible for all representations made to customers regarding the Oregon Home Energy Score Program or work performed for a customer under the Oregon Home Energy Score Program.

2. Home Energy Assessor Obligations

Home Energy Assessor acknowledges that it has the necessary qualifications, licensing, insurance, competence, and experience required to fulfill their respective responsibilities in providing the services and deliverables detailed in program standards.

Home Energy Assessor agrees to:

- a. Train internal staff, as applicable, to field customer inquiries about the Oregon Home Energy Score Program;
- b. Correct, without charge, any requests for correction from Earth Advantage related to any failure to abide by program standards, such as insufficient or untimely reporting of assessment results, within five (5) working days of the request;
- c. Repair, without charge, damage to a customer's property resulting from an assessment or other action or inaction arising under or related to providing Home Energy Assessor services as part of the Oregon Home Energy Score Program;
- d. Immediately report to Earth Advantage at ORHES@earthadvantage.org, all customer complaints or conflicts that are not resolved to customer's full satisfaction.
- e. Copy Earth Advantage staff at ORHES@earthadvantage.org on all customer complaint resolution communications.
- f. Prior to or immediately following an assessment, provide customer with a written statement via email, customer contract, invoice or payment receipt that stipulates that the Home Energy Score Report and any associated information will not be treated as confidential and will be made publicly available via Green Building Registry unless customer opts out. The following statement is provided as template language and can be used by Assessor in customer documents:

Customer agrees that the Oregon Home Energy Score and any associated information will not be treated as confidential. The customer hereby consents to allow the Home Energy Score Report to be collected and stored in order to be disclosed through accepted and secure methods of data transportation, for the specific purpose of publishing it on the Green Building Registry database. It is possible that this information will also be shared with applicable Multiple Listing Service (MLS) and/or similar real estate listing services and be identifiable to homeowner's property on the listing service."

Home Energy Assessor shall provide the form customer agreement to Earth Advantage for its review prior and approval prior to using the agreement with any homeowner.

3. Earth Advantage Obligations

Earth Advantage shall:

- a. Authorize Home Energy Assessor to participate in the Oregon Home Energy Score Program. Nothing in this agreement shall be construed as an assignment or a grant to Home Energy Assessor of any right, title, or interest in, or to the ownership of any materials or software provided by Earth Advantage under this Agreement or to the energy score data acquired by Home Energy Assessor, it being understood that all ownership rights relating to energy score data are reserved by Earth Advantage except for rights granted to the Home Energy Assessor as specified in this Agreement.
- b. Provide required program orientation, mentorship, and on-going quality assurance sessions to Home Energy Assessor, for the fees outlined below.
- c. Maintain a quality control system related to the Home Energy Assessor's performance.

4. Indemnification

Home Energy Assessor acknowledges that the Oregon Department of Energy has developed the Oregon Home Energy Score program solely for the purpose of promoting energy efficiency assessments and improvements, and that neither the Oregon Department of Energy nor Earth Advantage have responsibility of any kind for, and shall have no liability arising out of the performance of, any service, installation, operation, or maintenance of services provided by Home Energy Assessor.

Home Energy Assessor agrees to release, defend, indemnify, and hold harmless Earth Advantage and the Oregon Department of Energy, including their officers, directors, employees and agents, from and against any claims, actions, demands, costs, damages or lawsuits, arising out of or connected with Home Energy Assessor providing assessments related to the Oregon Home Energy Score Program.

5. Changes in Terms; Severability

Earth Advantage reserves the right to alter the *Oregon Home Energy Score Quality Assurance Protocol* and *Customer Dispute Protocol* at any time with 30 days prior notice. Current versions of these documents will be made available upon request by emailing ORHES@earthadvantage.org.

If any provision of this Agreement, the *Oregon Home Energy Score Quality Assurance Protocol*, or the *Customer Dispute Protocol* are determined to be unlawful, void, or for any reason unenforceable, then that provision shall be deemed severable and shall not affect the validity or enforceability of any remaining provisions.

6. Dispute Resolution

Any controversy or claim arising out of the Agreement, or the breach, termination, or invalidity of the Agreement shall be settled by attempting mediation, then arbitration in the event a mediated settlement cannot be reached. Any mediation or arbitration shall take place in Oregon. Any award, order, or judgment made pursuant to such arbitration shall be deemed final and shall be entered and enforced in any court of competent jurisdiction.

7. Governing Law

The Agreement will be governed by the laws of the State of Oregon.

8. Termination

Either party may terminate the Agreement upon 1 day written notice to the other party. The termination takes effect immediately and Home Energy Assessor shall stop any and all work performed under the Agreement. Upon termination of this Agreement, Home Energy Assessor will no longer be authorized to carry-out any Home Energy Score Assessments or provide Oregon Home Energy Score Reports.

Earth Advantage may terminate this Agreement for cause upon under the following conditions:

1. Home Energy Assessor breaches any provision of the Agreement; or
2. In the event the Home Energy Assessor fails or refuses to abide by modifications as provided for in this Agreement; or

3. Home Energy Assessor neglects obligations pursuant to this Agreement; or
4. Home Energy Assessor defames, slanders, or libels the Oregon Home Energy Score Program, Earth Advantage, or other program representatives; or
5. Proof of fraud on the part of the Home Energy Assessor, including:
 - a. Submission of false information
 - b. Gross negligence
 - c. Willful misconduct
 - d. Misrepresentation or false advertising

If Earth Advantage believes that any of the conditions above have been met, the following termination process will be followed:

- A recommendation for termination letter will be issued and sent to both the Assessor's email and physical address provided above.
- Assessor will then have 30 days to appeal the recommendation to Earth Advantage and the Oregon Department of Energy.
- Based on the appeal, Earth Advantage will make a final recommendation to the Oregon Department of Energy.
- The Oregon Department of Energy will have final authority on termination.

Home Energy Assessor agrees, in the event of termination for cause, to waive any claim for damages, including loss of anticipated revenue and profit of any assessment, resulting from termination.

9. Term

The agreement shall be effective from the date of execution of the Agreement until December 31, 2020. The parties may extend this Agreement by mutual written consent annually thereafter.

10. Fees for Services

- \$25 per generated Oregon Home Energy Score, whether initial or final (to be paid by Home Energy Assessor to Earth Advantage);
- Fees to be paid monthly, net 30 days, with 18% annual interest applied to outstanding balances;
- Fees to be paid whether or not the Home Energy Assessor charges or collects a fee for the performance of the service.

Additional one-time fee of \$150 per assessor mentoring session are also to be paid by Home Energy Assessor to Earth Advantage under the Agreement, net 30 days of receipt of the service, with 18% annual interest applied to outstanding balances.

Failure to pay any fees within 60 days of invoicing shall be deemed a material breach of the Agreement and shall entitle Earth Advantage to:

- Impose an interest charge on any such unpaid amounts at the highest rate allowed by law; and/or
- Immediately terminate the Agreement.

The Home Energy Assessor is solely responsible for payment of all fees charged by Earth Advantage for services rendered to Home Energy Assessor and/or Home Energy Assessor's company on behalf of Home Energy Assessor.

At any time during the term of the Agreement, Earth Advantage may propose a change in the fees noted above. Any fee change must be made with at least sixty days written notice given to the Home Energy Assessor and approval in writing by Oregon Department of Energy.

The amount Home Energy Assessor charges a customer to perform an assessment as part of Oregon Home Energy Score Program shall be determined by the Home Energy Assessor.

11. Insurance Requirements

Home Energy Assessor shall name Earth Advantage as additionally insured under Home Energy Assessor's insurance and provide Earth Advantage with insurance documentation attesting to this status prior to gaining authorization to participate in the Oregon Home Energy Score program.

Appendix A: QUALITY ASSURANCE PROTOCOL

Introduction

Part 1: Terms

Part 2: Agreement

Part 3: Earth Advantage / Mentor Responsibilities

Part 4: Enrollment/Training/Qualifications for home energy assessor

Part 5: Mentoring Process

Part 6: Quality Assurance Process

Part 7: Maintaining home energy assessor status

Part 8: Geographic Qualifications

Introduction:

Earth Advantage is the Quality Assurance Provider working on behalf of the Oregon Department of Energy to implement quality assurance requirements for the Oregon Home Energy Score program. Earth Advantage verifies home energy assessor qualifications, mentoring, performs both remote and in-field Quality Assurance Rescoring and data analysis to ensure that home energy assessors report data accurately and that home energy scores are generated in accordance with United States (US DOE) and Oregon Department of Energy (ODOE) participation requirements and guidelines.

Part 1: Terms:

Oregon Home Energy Score program - The program will administer the Oregon Home Energy Score.

Home energy assessor - Authorized assessors verified by the Oregon Home Energy Score program to do walk-through assessments to produce the home energy score and home energy report.

Earth Advantage - Quality assurance provider working on behalf of the Oregon Home Energy Score program.

Mentor - The Oregon Department of Energy designated Earth Advantage to appoint mentors to provide required mentoring on first program walk through and home energy score.

Home energy report - Oregon Home Energy Score branded report, which includes home energy score and information about the home's current conditions and upgrade opportunities.

Home energy score - Like a miles-per-gallon rating for a car, the home energy score is an easy-to-produce rating designed to help homeowners and homebuyers gain useful information about a home's energy performance. Based on an in-home assessment, the home energy score lets a homeowner understand how efficient the home is and how it compares to others.

Part 2: Agreement:

Agreement between home energy assessor and Earth Advantage (Quality Assurance Provider).

By signing the home energy assessor participation agreement, the home energy assessor agrees to the terms of the Quality Assurance Protocol. As a condition of performing home energy scores, US DOE requires that each home energy assessor enter into this agreement in order to receive quality assurance in accordance with program standards. The Quality Assurance Protocol describes these standards.

Part 3: Earth Advantage / Mentor Responsibilities

Mentor Responsibilities

- Mentors must be designated by US DOE, Oregon Department of Energy and Earth Advantage.
- Earth Advantage will assign new home energy assessors to a Mentor.
- Implement remote or in-field walk-through of the home energy assessor candidate's first home score.
- Ensure corrections are implemented if results for the same home differ by more than one point during a mentoring session.

Earth Advantage (QA Provider) Responsibilities:

- Implement in-field or remote re-scoring on 5% of all home energy scores performed in the Oregon Home Energy Score program.
- **In-field QA:**
 - Performed on 5% of home energy scores related to homes inside of the Portland Metro Area.
- **Remote QA:**

- Performed on 5% of home energy scores related to homes outside of the Portland Metro Area.
- Provide Remote QA Form, GoFormz application, for assessors to upload the required HES data and photos from all scores performed outside of the Portland Metro Area.
- Randomly select homes to re-score to ensure home data is entered correctly.
- Ensure corrections are implemented if results for the same home differ by more than one point

Part 4: Enrollment/Training/Qualifications for home energy assessor.

Program Application and Enrollment Process:

The program administrators will provide interested home energy assessor candidates with a home energy assessor Roadmap, which outlines requirements to become an authorized Oregon Home Energy Score home energy assessor, and will gather the necessary information about each applicant. The program administrators will ensure that each applicant completes the program enrollment and training requirements, and has obtained their Home Energy Score - Assessor ID before the applicant is officially enrolled in the program. The program administrators will regularly communicate with applicants any missing or incorrect information that is needed during the enrollment process.

Qualifications:

An authorized home energy assessor in the Oregon Home Energy Score program is trained, certified, and actively qualified in accordance with the US DOE Home Energy Score protocol and has completed Oregon Home Energy Score program requirements such as Orientation, remote scoring methodology, and compliant home energy report generator software training. Required qualifications outlined in more details in the home energy assessor Roadmap.

Orientation Process

After an Assessor has completed the enrollment process, program administrators will hold a mandatory session to ensure that home energy assessors have access and understand the home energy score, accompanying home energy report, promotional tools, and the quality assurance requirements. Program administrators will also coordinate with Assessors to arrange for their remote or on-site mentoring session, and ensure that they are prepared for the session.

Data collection and home energy reports:

Each home energy assessor is responsible for collecting the building data necessary to generate a compliant home energy report for the Oregon Home Energy Score program. The compliant report is produced through a software tool called the Green Building Registry. The program will provide home energy assessors a data collection form and instructions that consist of the required input fields for generating a report. For assessments where the home energy assessor has not provided a compliant home energy report, adequate information, or appears to rely on default information in cases where home-specific data should be known, the program administrators may request additional information or corrections. Assessors scoring homes in the Remote QA areas will be giving access to the Remote QA Form, GoFormz Application, to be used for data collection.

Part 5: Mentoring Process:

- The first Home Energy score conducted by a home energy assessor candidate will be a mentored session.
 - During an in-field mentored session, the Mentor and home energy assessor will do a walk through together.
 - During a remote mentoring session, the assessor candidate will utilize the Remote QA Form to upload the required home data and photos for review. The assessor candidate will also provide the Mentor with a short video clip of their mentor home with their verbal observations of various home systems. After these files are reviewed by the Mentor a video conference session will be set up between the Mentor and Assessor Candidate to review the results and findings.
- Home energy assessor candidates are encouraged to communicate with the mentor so that the mentor can offer guidance on best practices, share their experience and correct the new home energy assessor candidate should there be any misunderstandings of data collection, measurements, and assumptions.
- Once a home energy score and home energy report are generated, the home energy assessor will need to correct any errors or deficiencies related to the home energy reports.
- If significant quality assurance assistance is needed during the mentored home energy score, the home energy assessor candidate's second assessment will be mentored. During the second mentored assessment, if significant quality assurance assistance is needed, Mentor to require home energy assessor candidate to complete additional training courses before further home energy reports can be provided.
- If the mentored scoring session format is one-on-one and provided by Earth Advantage, this counts towards the 5% quality assurance re-score.

- If the mentored scoring session format is one-on-one and is not Earth Advantage, this does not count towards the 5% quality assurance re-score.
- If the mentored scoring session format is a group format, this does not count towards the 5% Quality Assurance Re-Scores, but it will satisfy the Mentor requirements.
- If the mentoring scoring session format is a remote session, the next 5 assessor scores will also be reviewed through the Remote QA process. This does not count toward the 5% Quality Assurance Re-Scores.

Part 6: Quality Assurance Process

- In-Field QA:
 - For Assessors scoring within the Portland Metro Area (see geographic qualifications below), Earth Advantage will contact the home energy assessor to coordinate a time to meet on-site and do a Quality Assurance re-score walk through of the home.
 - In this visit, Earth Advantage and home energy assessor do not need to do the walk through side by side. Earth Advantage and home energy assessor must not discuss the walk through and calculations until after each has completed data entry and produced a home energy score.
 - Discussion between Earth Advantage and home energy assessor is recommended after the independent re-score of the home is completed to identify differences in interpretation or measurement and agree on a preferred approach going forward.
 - The house must be in similar condition during both walk throughs and use the same level of data.
 - If a blower door test was performed by the home energy assessor during the walk through, then it must be done during the Earth Advantage re-score as well.
 - Earth Advantage may also select the scores after the Assessor scoring to revisit the home and generate a QA re-score.
- Remote QA:
 - For all scores generated outside of the Portland Metro Area (see geographic qualifications below), Assessors are required to utilize the Remote QA Form.
 - The Remote QA Form is a digital form accessed through the GoFormz application. It provides the Assessor a mobile compatible format for collecting and uploading the required HES data points and house photos. This application also generates the complete QA Packet for review.

- Earth Advantage will keep the complete QA Packet for all scores and will randomly select 5% of these for QA Re-score.
- Earth Advantage will notify Assessors if they are not generating a Complete QA Packet through the GoFormz application. Additional data or photos may be requested from the Assessor.
- The home energy scores of the home energy assessor and the Earth Advantage must be comparable.
 - If the results for the same home differ by more than one point (on the 10-point scale), another re-score of the home may be required as determined by the QA Provider.
 - If a home energy assessor produces three of five consecutive home energy scores that are not comparable with quality assurance re-scores, re-training is required and must be completed before the home energy assessor can score more homes. Earth Advantage will monitor and identify these QA issues and will report them to the DOE.
- Besides in-field and remote quality assurance described above, US DOE and Earth Advantage will be doing aggregate data review at minimum on a quarterly basis. During the first year of this program, aggregate review will typically occur more frequently. If significant potential errors are discovered, Earth Advantage will communicate any necessary follow-up to the home energy assessor. The home energy assessor may need to re-score the home.

Part 7: Maintaining authorized home energy assessor status:

Authorized status: The candidate home energy assessor cannot be an authorized home energy assessor until they have written approval from the program Earth Advantage.

In addition to obtaining the program’s qualifications requirements, each home energy assessor must do the following maintain authorization:

Assessors need to score homes on a consistent basis in order to maintain an authorized status; each home energy assessor must produce an official home energy score for at least one home every six months (180 days) in order to be considered authorized.

- Any home energy assessor who has not scored a home in 180 days will lose their authorized status and be changed to unauthorized. Earth Advantage or US DOE will send you an email to notify you if your status has changed to unauthorized.

- Unauthorized home energy assessors will be required to complete a training refresher exercise on the Sim training and testing site in order to be re-authorized.
- The home energy assessor's status will be re-authorized once they have successfully completed the exercise correctly in the Sim Tool. Once Sim tool access has been provided, the home energy assessor can train and test at any time – no direct oversight is required to complete the Sim refresher training exercise.
- Earth Advantage or US DOE will email you to notify you that your status is re-authorized.

Any home energy assessor participating in the Oregon Home Energy Score program may have their authorization suspended or removed in any of the following circumstances:

- Failure to take corrective action - Suspension. If a home energy assessor has failed to follow the requirements as established by these standards, Earth Advantage shall immediately suspend the home energy assessor.
- Failure to take corrective action after suspension - Removal. In the event that the deficiencies have not been remedied within the period set forth in the suspension notification, Earth Advantage shall immediately remove authorization of the home energy assessor.
- Submission of false information – Suspension or Removal
- Gross negligence – Suspension or Removal
- Willful misconduct– Suspension or Removal
- Misrepresentation or false advertising by the home energy assessor in relation to authorization status or with respect to any service provided by the home energy assessor – Suspension or Removal
- Not abiding by the Quality Assurance Protocol – Suspension or Removal
- Failure to disclose and resolve a conflict of interest – Suspension or Removal
- Home energy assessor goes out of business – Suspension or Removal
- Home energy assessor does not maintain active status of qualifying credentials and/or licenses referenced in the Oregon Home Energy Score home energy assessor Roadmap – Suspension or Removal

Earth Advantage shall follow due process procedures in relation to suspension or decertification actions against a home energy assessor. Earth Advantage may, at its discretion, initiate a suspension or decertification action against an authorized home energy assessor by providing a written notice of the action. The home energy assessor has the right to appeal to the Oregon Department of Energy. US DOE will be kept informed of the process.

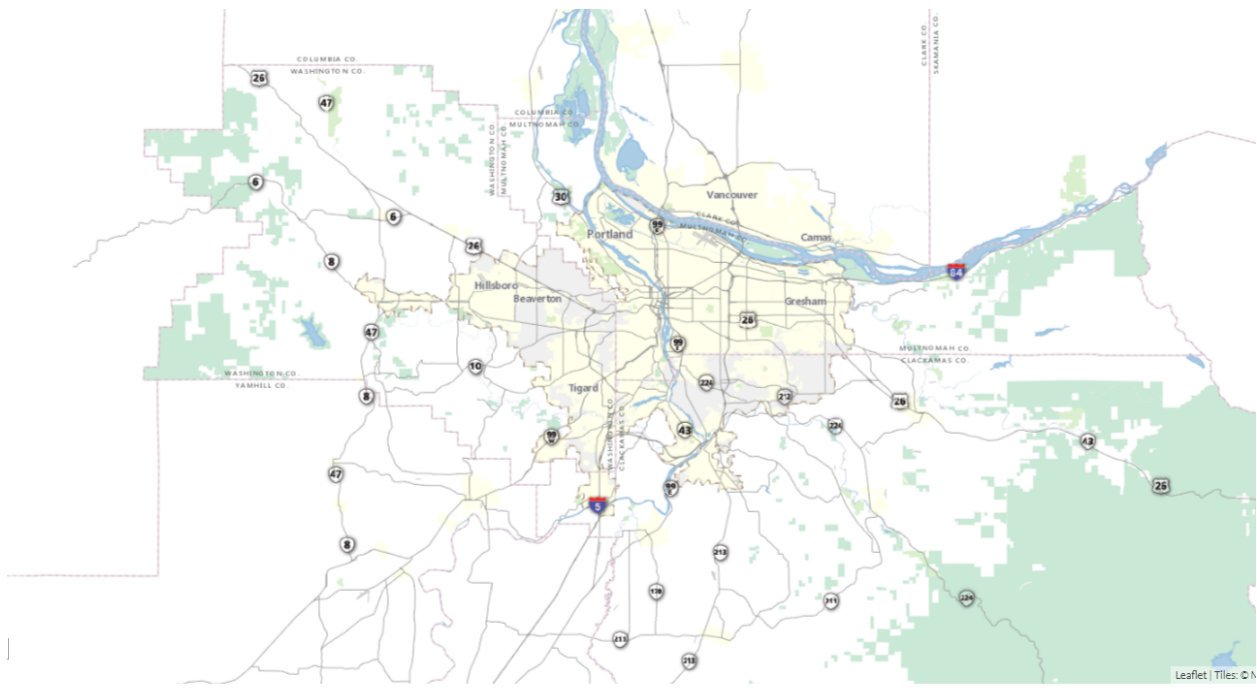

Part 8: Geographic Qualifications

Depending on which areas of Oregon an HES Assessor is scoring a home they will need to follow the requirements for HES Quality Assurance in that region. There are two types; Field QA or Remote QA.

Field QA

All homes within the Portland Metro region, which includes 24 cities, follow the Field QA path. In this area 5% of scores generated by Assessors are pulled by Earth Advantage staff to revisit the home and conduct a Field QA. This may be done alongside of the Assessor or at a different time depending on the scenario. The QA provider score and Assessor score are then compared for consistency. Any issues are discussed with the Assessor and corrections are made as needed.

Map of Portland Metro Area requiring Field QA: Homes within the 24 metro cities require Field QA

Cities

- Beaverton
- Cornelius
- Durham
- Fairview
- Forest Grove
- Gladstone
- Gresham
- Happy Valley
- Hillsboro
- Johnson City
- King City
- Lake Oswego
- Maywood Park
- Milwaukie
- Oregon City
- Portland (Other areas outside Portland Jurisdiction such as Maywood Park)
- Rivergrove
- Sherwood
- Tigard
- Troutdale
- Tualatin
- West Linn
- Wilsonville
- Wood Village

Remote QA

For all areas outside of Portland Metro the Remote QA path for HES scores is required.

In these areas the Assessor is required to utilize the Remote QA form with photo uploads for every home scored. This form is filled in using the GoFormz application and will be reviewed by Earth Advantage QA Team. QA scores will be generated on 5-8% of these remotely using this Remote QA form and other sources of online data.

The QA provider score and Assessor score are then compared for consistency. Any issues are discussed with Assessor and corrections are made as needed.

Map of Oregon requiring Remote QA: Areas outside of the red circle require Remote QA. This circle is not to scale. Please refer to Portland Metro city list above. A quick way to determine if you are in a Remote QA area is to determine if the home is outside of these counties; Multnomah, Clackamas and Washington County. If you are inside these counties then refer to the above city list.

Appendix B: Customer Dispute Resolution Protocol

This Oregon Home Energy Score Customer Dispute Resolution Protocol describes how and under what circumstances disputed home energy scores or other potential customer complaints will be evaluated by Earth Advantage and the Oregon Department of Energy. The Oregon Home Energy Score Dispute Resolution Protocol contains a process that includes:

- **Triggers:** Circumstances in which the City of Portland Home Energy Score Dispute Resolution Protocol would be initiated;
- **Resolutions:** Actions taken by the home energy assessor, Earth Advantage, Oregon Department of Energy, or other parties to resolve an issue, dispute, or complaint;
- **Penalties:** If applicable, the steps taken by Earth Advantage, Oregon Department of Energy or other parties in cases where a home energy assessor has been found to be in error or in non-compliance with the Oregon Home Energy Score Quality Assurance Protocol or the Terms and Conditions of the Oregon Home Energy Score Assessor Participation Agreement.

Trigger: Customer complaint/dispute is lodged directly with home energy assessor.

Resolution steps:

- Step 1: Home energy assessor resolves customer's complaint to full satisfaction. If this is not successful then;
- Step 2: Home energy assessor reports customer complaint to Earth Advantage with two (2) business days.
- Step 3: Earth Advantage conducts review of relevant home energy score and associated data. Depending on the homeowner concern and information gathered during desk review, a follow up in-field or remote assessment with the home energy assessor may be needed.
- Step 4: If Earth Advantage identifies errors: Earth Advantage instructs home energy assessor to correct the home energy score or take other corrective action. Earth Advantage will inform the home energy assessor in writing when QA re-score is able to be sent to the homeowner. The home energy assessor must copy Earth Advantage in correspondence of resolution with homeowner with QA re-score.

If Earth Advantage does not identify errors:

Earth Advantage provides home energy assessor in writing QA results with indication that no corrections are needed. The home energy assessor must copy Earth Advantage in correspondence with homeowner. If not copied, Earth Advantage reserves the right to follow-up with the home owner directly to confirm the resolution.

Trigger: Customer complaint/dispute is lodged with Oregon Department of Energy.

Resolution steps:

- Step 1: Oregon Department of Energy emails customer complaint/dispute to Earth Advantage.
- Step 2: Earth Advantage sends notice of complaint to home energy assessor. Home energy assessor reviews customer file and resolves customer's complaint to full satisfaction. If this is not successful then;
- Step 3: Earth Advantage conducts review of relevant home energy score. Depending on the homeowner concern and information gathered during desk review, a follow up in-field or remote assessment with the home energy assessor may be needed.
- Step 4: If Earth Advantage identifies errors: Earth Advantage instructs home energy assessor to correct the home energy score or take other corrective action. Earth Advantage will inform the home energy assessor in writing when QA re-score is able to be sent to the homeowner. The home energy assessor must copy Earth Advantage in correspondence of resolution with homeowner with QA re-score.

If Earth Advantage does not identify errors:
Earth Advantage provides home energy assessor in writing QA results with indication that no corrections are needed. The home energy assessor must copy Earth Advantage in correspondence with homeowner. If not copied, Earth Advantage reserves the right to follow-up with the home owner directly to confirm the resolution.

Trigger: Earth Advantage / US DOE QA screening determines potential scoring error.

Resolution steps:

- Step 1: If Earth Advantage or US DOE identifies errors during data screening, Earth Advantage instructs home energy assessor to correct the home energy score or take other corrective action in writing.
- Step 2: The home energy assessor must copy Earth Advantage in correspondence of resolution with homeowner, including correspondence with a corrected home energy score. If not copied, Earth Advantage reserves the right to follow-up with the home owner directly to confirm the resolution.

Trigger: Earth Advantage / US DOE QA screening determines pattern of potential scoring errors

Resolution steps:

- Step 1: If Earth Advantage or US DOE identifies errors during data screening, Earth Advantage instructs home energy assessor to correct the home energy score or take other corrective action in writing. Corrective action may include re-training and must be completed before the home energy assessor can produce home energy scores for more homes.
- Step 2: The home energy assessor must copy Earth Advantage in correspondence of resolution with homeowner, including correspondence with a corrected home energy score. If not copied, Earth Advantage reserves the right to follow-up with the home owner directly to confirm the resolution.
